

Gluten Free Guide

The goal of this publication is to make it easier for our customers with Gluten dietary restrictions. As a reference point, gluten is a protein found in rye, barley and wheat (including atta, bulgur, couscous, durum, einkorn, emmer, farina, kamut, seitan, semolina, spelt, and triticale). Some products on our list do not state that they are gluten free, even though they appear to be appropriate for gluten free diets.

As a general rule of thumb the following products DO NOT contain gluten: dairy (including aged cheeses, eggs, ice cream), all fruit juices, meat, poultry, seafood, pork, dried fruit, raw nuts, produce, frozen or fresh fruits and vegetables, vegetable oil, olive oils, peanut butter, dried beans and rices, brown and white sugar, gelatin, jelly/jam, honey, molasses, pure cocoa, condiments, vinegar (EXCEPTION MALT VINEGAR), coffee, chocolate, and spices .

We encourage you to **always read the label as ingredients in products change.** The information below is provided to our valued customers as a helpful guide. Please note, if you are allergic to other foods other than gluten, they may be represented on this list.
